

# SC-540

## AUTO SHEET FEED DIGITAL DIE CUTTER

Cutting Mode

High capacity paper feeder

Supports 10 languages

Vision control software

### Features

- **Cutting Mode:** The plotter blade is designed with two position; in the through cutting mode, it works by an opening which prevents the blade from wear while cutting the material speed varies depending on the complexity of the outline.
- **Auto Sheet Feed:** The system is equipped with an internal vacuum compressor, which does not require external air connections.
- **Auto Sheet Feed Function:** additional sheets may be added without having to stop the machine.
- **Total dimension including exit tray 45.66" (116 cm)**
- **Minimum space required for feet positioning 26.37" (67cm)**
- **Table space length 31.89" (81cm)**
